ONLINE TRAINING PROGRAM

WIZARD TECH ONLINE TRAINING FOR WELD WIRE DISPENSING & WELD CELL SUPPORT EQUIPMENT

ELCo Enterprises, Inc. is pleased to announce the launch of "Wizard Tech," an in-depth, online training program designed to educate welding professionals on our entire line of quality weld wire dispensing and weld cell peripheral equipment. Wizard Tech consists of 7 courses, each divided into several modules. These educational courses will explain how to properly set up weld wire dispensing systems as well as how to solve many problems associated with wire feeding, such as excess friction, wire shaving, wire tangling and other common issues that occur in different welding applications.

The fully narrated training program features visuals including photos, diagrams, graphs and videos to make the learning experience engaging and intuitive. Users may save their progress after finishing each module, so the training does not need to be completed all at once. Upon completion of the Wizard Tech program, your company and trained team members become **Wizard Certified** & obtain exclusive benefits.

The seven courses include:

1. Introduction and Basics of Wire Feeding
2. Wire Dispensing & Payoff Systems
3. Wire Transport Systems (Conduits & Connectors)
4. Wire Pilot® Feed Assist System
5. Anti-spatters, Nozzle Cleaning Stations & Torch Liners
6. Weld Cell Tools and Maintenance Equipment
7. Wire Guide Module System

ONLINE TRAINING PROGRAM

HOW IT WORKS...

- Each course is divided into modules, incorporating videos, photos, and pop-up “Wiz Quizzes”
- After completing each “Wiz Quiz”, you are then allowed to move on to the next course or module
- Training does not need to be completed all at once, your progress will be saved as you complete each course or module
- The entire training program can be completed in **under 5 hours!**

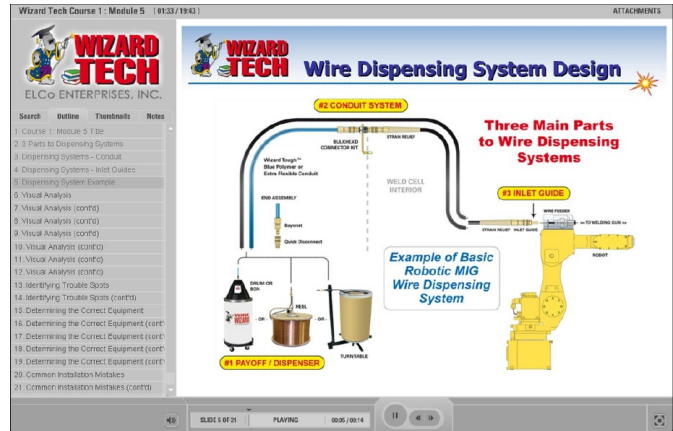

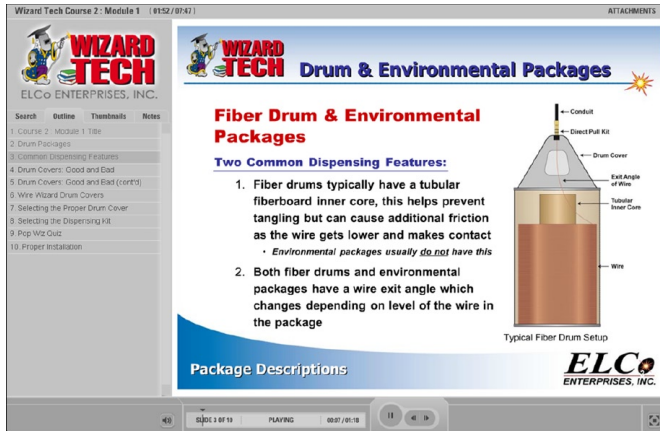

TRAINING PROGRAM DETAILS...

Each Wizard Tech Course will help increase productivity, reduce downtime and improve your ROI. These educational courses explain...

- The basics of weld wire feeding
- Properties of different types of wires and wire packaging
- How to properly set up weld wire dispensing systems
- How to solve common problems associated with wire feeding
- Best use of anti-spatters, reaming stations & more!

WIZARD TECH SCREENSHOTS:

WIZARD CERTIFICATION BENEFITS

- Become a Gold Certified Wizard upon successful completion of all courses
- Receive a Wizard Certified hat & priority support
- Receive exclusive discounts & product rebates
- Become an expert at optimizing your weld wire dispensing system for maximum productivity without unnecessary downtime
